**Easier. Better. Improved.  
The Redesigned Super Blower/Vac™**

MINNEAPOLIS, MN – Demanding yard work can be a hassle. The last thing you want to do is spend an entire weekend raking. Time is tight and chances are, you've got a lot of other things on your to-do list. Well, the Toro Company has come to your rescue.

Toro has just the tool to help you make quick work out of your backyard chores. The company's redesigned Super Blower/Vac will not only give you the power you need, but it will make the toughest yard chores seem like a breeze.

The Super Blower/Vac combines three machines in one. It's a powerful blower, high-speed vacuum and leaf shredder. With a maximum 215-mph jet stream of air, debris such as damp leaves, dirt and sticks are gone in seconds. The new two-speed air control gives you more flexibility. Use the lower setting for light chores such as sweeping your garage floor or turn up the power to make heavy-duty lawn cleaning a snap.

Better vacuum performance means that you get the job done faster. The Toro Super Blower/Vac collects more bushels of leaves per minute than the previous models. A large capacity bagging attachment means fewer trips to the compost pile.

The unit's ergonomic design makes the Super Blower/Vac easier to use. This new blower has the power, but not the weight associated with heavy-duty blowers. It weighs in at a mere 7-pounds. The lighter weight means it's easier to use and less fatiguing for your arms and hands. It's also more convenient to convert from blower to vacuum. An easy release latch makes the transition quick and painless. And you can say goodbye to the hassle of a cord that accidentally unplugs. Toro engineers have designed an exclusive extension cord lock that will hold your cord firmly in place.

The new Super Blower/Vac can be purchased at most retailers for around \$60.00 and it comes equipped with a 2-year full warranty. If anything goes wrong on your Super Blower/Vac in the first 2 years, Toro has it covered.

Toro is a leading worldwide provider of outdoor maintenance and beautification products for home, recreation and commercial landscapes.
