**The Toro Twister™:
A Powerful Hunting Companion**

MINNEAPOLIS, MN – Any ATV can get you to your blind or favorite hunting ground. The new Toro Twister™ can comfortably carry you *and* a friend, your dog and enough decoys to fill a lake. Camo gear means you can park it close by, then haul everything back -- including several ducks or even a full size buck -- in one trip.

One look at the Twister will tell you this truck-style utility vehicle can get you anywhere you need to go. Its exclusive suspension system sets it apart from the competition. In front, an independent A-Arm Suspension absorbs the shocks from uneven terrain. And its Active In-Frame Suspension twists to allow the front of the vehicle to adjust to the terrain independently of the rear of the vehicle. That means all four wheels stay in contact with the ground at all times. The result is better traction, improved stability and a smooth ride.

With the Twister, hauling a full load of supplies is a breeze. The Twister has a best in class 14.75 cubic foot bed capacity and a payload capacity of up to 1,600 pounds. The Twister's double-walled polyethylene bed is resistant to dents and corrosion so it will remain maintenance-free for years and years. And unloading the cargo bed is easy thanks to a quick-release latch on the cargo bed gate and the easy-to-use manual lift. Adding an optional electric bed lift makes dumping heavy loads even easier.

With speeds of up to 20-mph, the Twister gets deep off-road quickly and easily. Maneuvering in tight places is no problem for the Twister -- its sector and pinion steering and nine-foot turning radius makes it the most agile utility vehicle available. Add the stopping power of available four-wheel hydraulic brakes and you've got performance and peace of mind.

Toro engineers kept comfort in mind while designing the Twister. Twin bucket seats, a wide step-through operator area, and lots of legroom ensure a comfortable ride. There is even a cup holder, cell phone holder, 10-amp power outlet and plenty of storage space to haul the little extras you need while on the hunt.

With more than 25 attachments and accessories available, every Toro Twister can be customized to your particular needs. Outfit your Twister with Mossy Oak® soft goods and you've got the perfect hunting vehicle. Chose from a hood cover, seat and box covers, even a full cover to completely camouflage your ride. Add the brushguard and gun boot and your Twister is set to track down that big trophy.

The new Twister utility vehicle has an opening manufacturer's suggested retail price of \$6,999.

Toro is a leading worldwide provider of outdoor maintenance and beautification products for home, recreation and commercial landscapes.
